Dr. Michael Sabom is the author of *Recollections Of Death*, an early, influential medical study of Near Death Experiences. In this second book, he offers new scientific evidence from a fresh round of clinical studies, along with a theological evaluation and interpretation from the perspective of his conservative Presbyterian tradition.

The ITSSM is hosting a symposium, "Near Death Experience in Christian Perspective," next April 19-20. This book study offers an early opportunity to learn about these experiences and raise the questions, scientific and theological, we face in their interpretation.

The book is available through Amazon for \$10.

Leader: The Rev. Canon Christoph Keller, Th.D.

The class is free. Participation is limited to 15 persons. Register by email at cf.itssm@gmail.com
